FORESTER POSITION OPEN:

Green Timber Consulting Foresters, Inc. is seeking qualified candidates to fill staff forester positions. Available positions will be based out of our Arnheim (16 miles south of Houghton) and Newberry office locations. Successful applicants will be expected to perform a wide variety of field forestry tasks with emphasis on forest inventory, timber sale preparation, and the development of forest management plans. Timber sale administration will be a minor component of this position. These are full-time positions with the majority of work responsibilities occurring within a two-hour drive of the assigned office location. However, occasional projects will require overnight travel for one to three weeks per assignment.

DUTIES INCLUDE:

- Variable radius and fixed radius inventory sampling to meet a diverse range of specifications on a variety of projects.
- Accurately measuring and recording tree data into a handheld device.
- Timber marking in a variety of forest types, following appropriate silvicultural prescriptions.
- Collecting detailed information at the property and stand level to be used for the production of high-quality management plans.
- Developing forest management plans.
- Communicating with clients.
- Establishing timber harvest and riparian management zone boundaries.
- Timber sale and road layout.
- Timber sale marketing, contracting, and administration.
- Using maps and GPS for field navigation and a variety of forestry applications.
- Minor maintenance of field gear.

REQUIREMENTS:

- Minimum of two years of forestry-related education. Bachelors of Science in Forestry is preferred however an Associate degree in Forestry would be considered.
- Minimum of two summers or six months of practical field experience directly related to the duties stated for this position is preferred but not required. More experience would be reflected positively in compensation.
- Candidates with forest inventory and timber marking experience are preferred.
- Candidates with strong written, verbal, and organizational skills are preferred.

- Knowledge and experience of forest inventory measurements and techniques.
- Experience using GPS receivers and handheld electronic data collection devices.
- Experience and ability to navigate rugged, swampy, and brushy forest conditions during all seasons and with the use of snowshoes when necessary.
- Experience and ability to work in variable and harsh weather and environmental conditions including extreme cold, heat, and insects.
- Proficiency with Microsoft Office software.
- Experience and ability to safely operate a pick-up truck, ATV, and snowmobile in remote areas and on minimally maintained road systems.
- General understanding and ability to maintain an ATV and snowmobile as well as troubleshoot minor mechanical problems.
- Self-motivation, organization, and honesty.
- Ability to work independently for extended periods of time.
- Ability and willingness to live/work in various States for up to three weeks per project assignment.
- Daily logistics planning, correspondence, and safety check-ins with supervisor.
- Practicing personal safety on a daily basis.
- Obtain and maintain a valid Michigan driver's license within eight weeks of hire.

COMPENSATION:

- A competitive compensation/benefit package will be offered to the successful applicant based on their past experience and qualifications.

HOW TO APPLY:

Applications may be submitted immediately and will be accepted until the positions are filled. Interviews will be scheduled to meet applicant's availability. Applications must include the following:

- Cover letter
- Resume
- Three references

Please submit applications via email to: justin@greentimberforestry.com

Expect confirmation within two days of sending via email
